

# Abdul Syed

syed\_abdul\_basit@hotmail.com | 07503877578 | Swindon, UK

Practical and versatile software developer with Agile work experience. Strong communication and problem-solving skills. Looking for long term Full Stack Software Developer role, and open to learning new technologies.

## EXPERIENCE

### JUNIOR SOFTWARE DEVELOPER IN TEST PREPAY SOLUTIONS

Sep 2019 – Present | Swindon, UK

- Developed Code Base and wrote Automated Tests in Java
- Acted as a contact point between the technical team, functional team and the test team.
- Performed requirement analysis, design, development and test management of monthly releases.
- Delivered new features in both Agile and SDLC life-cycles
- Automated build, delivery and release of maven packages.
- Estimated, performed feasibility analysis and forecast risks and planned the delivery for new requirements
- Unit-test code for robustness, including edge cases, usability, and general reliability.

## PROJECTS

### PASSWORD SAFE

- Developed web app which registers and authenticates users, stores registration data in database
- Users may store a password and may view it after authentication

### TO DO LIST

- Developed custom to do lists using express route parameters, Utilised Node.js, Express and MongoDB
- Renders and saves individual items on custom lists, Deployed to Heroku

### WIKI RESTFUL-API

- Creating a RESTful API which stores objects in MongoDB, CRUD operations can be performed to individual or grouped objects via Postman
- Deployed to Heroku

### WEATHER WEBAPP

- Developed a Weather App that uses OpenWeatherMap.org API services to fetch weather data
- Temperature can be viewed in Celsius and Fahrenheit, Deployed to Heroku

### DAILY JOURNAL

- Developed a Personal Blog Web App, daily Blogs can be viewed chronologically and can be read on personalised pages
- Node.js was used for back end services, Bootstrap for front end and MongoDB for data storage

### KEEPER

- Developed note taking web app inspired by Google Keep using React.js
- Keeper allows you to add and delete notes

### DRUM GAME

- A simple sound generator using JavaScript Document Object Model
- Keyboard and Mouse Clicks generates drum sound
